

Step 8

This is the final step where it all comes together.

This week you will need all the units from Steps 5, 6 and 7.

Arrange these, as shown below, with Step 5 unit in the centre, Step 7 blocks in the corners and Step 6 units at North, South East and West with the C triangles to the centre.

Stitch the units into rows and the rows together to complete the quilt top.

You can play around with the units to make different designs if you wish – we'd love to see what you come with, whether it's your final choice or not.

Finally – layer, quilt and bind; not forgetting the all important label and a sleeve if required.
